PROFILE

I am a student at Queen Mary University of London studying Computer Science with a great passion to lead teams and solve complex problems. I believe I can implement my skills and knowledge gained from my past experiences for your firm during this amazing internship opportunity.

PROJECTS

Personal Portfolio

Using HTML and CSS I made a portfolio to allow a quick introduction of my self and to display my skills.

Text Game: Pointless

I used basic java skills to make a replica of the game "Pointless" in a text form.

Text Adventure Game: Stone World

I made a text adventure games using Object orientated programming concepts.

First portfolio

I used HTML CSS and PHP. I used PHP to connect to a database to retrieve Blog entries that can only be submitted from an admin account.
